The game plan is generally as follows.....once this list is finalized, any club member who desires to do a trip (or part of a trip) would be responsible for making his/her own reservations with the dive charter company as well as any motel/hotel accommodations they may desire. Club members can set up car pooling as they desire. Dive as often or as little as you want. Boats have limited space, the sooner you sign up, the better chances you have to dive. Reservations can generally be canceled a day or two ahead of the dive date.

We'll plan to get phone numbers, web site addresses, equipment rental info, dive costs and any applicable discounts offered by the dive charters and/or local lodging and reservation process details for your use. It would be great if each dive trip had a volunteer "**Trip Leader**" to help coordinate and convey information such as boat departure times, water depth, vis, water temp and other specifics applicable to that particular trip.

We can still plan and do longer dive trips, Disney dives, etc. in addition to this list as the club may desire. **Please review the above list of proposed dive trips in order to discuss and finalize at our April meeting.**
